# BIEN-AIR MICRO-SERIES: UP TO 30% SHORTER AND 23% LIGHTER.

## 6 DEFINING FEATURES OF THE OPTIMA & MCX MICROMOTOR

S W I S S  M A D E

# PROIMPLANT SPECIAL

2nd Half: July 1 - December 31, 2025

**BUY**  
**1 ProImplant**  
REF 1700768-001

**GET**  
**1 CA 20:1 L**  
REF 1600598-001

## SIMPLE & USER FRIENDLY

Get started easily with pre-installed surgical settings.

## STABILITY AT LOW SPEED

Operate with confidence at low RPM for implant placement.  
Set the maximum desired torque and the motor will apply the necessary torque to ensure consistent rotational speed.

## INTUITIVE CONTROL KNOB

Turn to scroll the menus,  
then press to confirm your choice.

## EASY TO CLEAN

The rotary knob easily detaches  
for sterilization, and highly resistant glass protects  
the front panel for easy cleaning.

## PATENTED IRRIGATION SYSTEM

Internal irrigation travels down the threads of the osteotomy drill,  
cooling the bone site continuously and accurately without obstructing view.

Pair the CA 20:1 L with the ProImplant for unparalleled speed, stability,  
and accuracy. It is the world's first surgical contra-angle with an internal  
irrigation line, providing the greatest visibility for any implant procedure.  
The system remains at least 99% accurate of its display over its service life  
without calibration.
