

TIDI Shield®

Curing Light Sleeves

TIDIShield LED Curing Light Sleeves feature a SureCure Window™, provide a customizable fit over curing lights to help reduce the risk of contamination, and are designed with soft, rounded edges for greater patient comfort.

- Helps minimize hard-to-remove composite buildup on the curing light tip
- Individually wrapped (easy-to-peel wrapping helps protect each sleeve until time of use)
- Using covers reduces the risk of saliva exposure to equipment
